

About HPC Consulting

- **HPC Consulting Ltd.** was founded in June, 2005
- The owners and principal trainers / consultants (László Soós and Dr. Róbert Veresegyházy) continue the work started in **5S Bt** and **Benchmarking Bt**
- Previously both of them held the position of the executive director of the Hungarian Productivity Center (**HPC**) for several years
- In HPC Consulting – relying on their well trained team of previous HPC trainers and consultants – they wish to spread the know-how they have gained through working several years together with Japanese productivity consultants, at increasingly higher level to their clients

Key areas

The house of lean – service concept

Key services

- Lean, Kaizen, TPM and management **trainings and workshops** for managers, supervisors, operators and specialists
- Productivity (primarily lean and Kaizen) **audits, consulting and method implementation** (5S, TPM, SMED, TQC, VSM, pull system, etc.)
- Building a performance management system, BSC, the management background of lean, supervisory training
